### Application fee payment

In order to complete the online application, you will need to pay the application fee of \$35 (or ₵120.00). Contact the admissions office for information on payment.

### How applications are evaluated

Each application is reviewed by the admissions committee and, in some cases, by the Academic Council. We are looking for evidence that you will be a successful student at Webster University. Consideration is given to the following:

- Academic performance
- The rigor and content of your coursework
- Your motivation, commitment and readiness for university life as demonstrated in your application essay and as discussed by your recommender

And, when it is relevant, consideration is also given to:

- Documentation of academic English proficiency

If the admissions committee finds the information in the application insufficient for making the decision, the applicant will be invited to an interview.

### Academic Requirements

Minimum admissions requirements for undergraduate studies at Webster University:

- Secondary school (high school) diploma: You can apply before your exams, but your admission status will depend on your successful completion of high school.
- A cumulative grade point average (CGPA) of 2.5 on a 4-point scale, or its equivalent. The admissions committee will consider a CGPA between 2.0 and 2.4 for entry as a 'conditional' student. In programs that use a different assessment scale, academic achievement is evaluated in the context of the relevant academic system.
- WASSCE: Student must have a minimum C6 grade in the three core subjects, and a minimum C6 grade in three additional subjects. The subjects do not have to be directly related to the major being pursued.
- SSSCE: Student must have a minimum D grade in the three core subjects, and a minimum D grade in three additional subjects. The subjects do not have to directly relate to the major being pursued
- When applicable, proof of academic English proficiency at the undergraduate level.

*Note:*

- Previous coursework is not needed in the field in which you plan to major at Webster.

### Advanced Standing Transfer Credit

You may qualify for Advance Standing Transfer Credit if you have passed external exams from such programs as:

- A-Levels
- International Baccalaureate

Transfer credit is evaluated on a case-by-case basis and determined according to the guidelines of each academic department. Students who receive Advanced Standing Transfer Credit may be able to complete the bachelor's degree sooner.

The length of study may be shortened by as much as two semesters depending on individual results.

### Transfer Credit

Webster accepts transfer work from other accredited university-level institutions. The institution must be accredited where it operates either nationally or regionally. Webster may allow transfer of up to 98 credit hours of academic university-level work. To earn the bachelor's degree, which requires 128 credits, all students must meet the requirements for their major, as well as the requirements for the Global Citizenship Program. Also, a residency of at least of the last 36 credits earned must be completed at Webster.

### Academic Transcripts and Certified Copies

You will need to request official transcripts from all the schools where you completed the last three years of academic work to earn your high school diploma. Transfer students must also submit official transcripts from the colleges and universities attended.

If you attended a university that does not issue transcripts but gives the original certificate or mark sheet directly to the student, you will need to make a photocopy of the original certificate or mark sheets and have the university registrar certify or attest that the copy is a 'true copy' of the original document. The attested copies should be mailed by the registrar directly to the Admissions Office of the Ghana Campus.

Send the transcripts by courier to the Webster University- Ghana Campus.
